

CONSERVATORY

All students have the opportunity to participate in The Habersham Conservatory of the Arts, which allows further study and engagement beyond their regular classes. Local teachers, many of which are active professionals in their fields, come to the school to help students take the next step in developing their talents. Some of these options include, but are not limited to, group piano and guitar classes, studio art classes, and private after-school lessons in piano, voice, strings, guitar, drawing and painting.

If you have any questions about the Conservatory, please contact, Effie Mydell, at emydell@thehabershamschool.org.
