

The At Home Learning Option at The Habersham School for 2020-21

We understand that every family's situation is unique. The Habersham School's At Home Learning Option is designed to serve families facing COVID-related issues that make staying home necessary to ensure safety for family members.

3rd-12th Grade

We have invested through Celestial Business Solutions in high-quality equipment to provide live-stream service for a 3rd through 12th grade experience that is the next best thing to being there. Students will dress for school, receive instruction, participate in class, see and be seen by fellow students, and follow the day's schedule along with fellow classmates.

PK3-2nd Grade

Teachers and parents will partner more closely for students in 2nd grade and younger. All schedules, materials, and enrichment needed for a complete at-home school experience are provided, to be administered by an at-home care-giver with teacher guidance every step of the way. Math and Latin instructional videos are provided. Regular opportunities to interact with other classmates keep your student connected to his or her teacher and fellow students.

A student learning at home is welcome to return to the classroom when your family's health situation allows. Your student is welcome to participate in any school function or activity that you feel comfortable with. For example, some families might wish to participate in outdoor activities such as sports, outdoor lunches, retreat or field trips, house events, etc.

In addition to serving families whose COVID-related health situations require learning from home, our At Home Learning Option will serve the need of students who must isolate at home after having shown symptoms or tested positive for COVID-19 before being cleared to safely rejoin the community.

Additionally, our live-stream system allows teachers who may need to quarantine to teach class from home while another adult provides in-class supervision, thereby keeping instruction and learning consistent.

We are delighted to serve your family, in whatever situation the Lord has you at this time. Please contact Jacquie Miller at jmiller@thehabershamschool.org to inquire about whether our At Home Learning Option is right for your needs.
