

Dear Parents,

As we approach the summer break, we want to wish your family a safe and restful vacation. Summer is a time for relaxation and fun, and we hope you have the opportunity to enjoy quality time together. However, we also want to highlight the importance of preventing the "summer slide," a phenomenon where students can experience a decline in their academic skills over the break. Research consistently shows that students who do not engage in educational activities during the summer may struggle to retain the knowledge and skills they gained during the school year.

To help prevent the summer slide and keep your child's academic skills sharp, we have carefully curated a list of summer assignments and activities for each grade level. These assignments are designed to be engaging, educational, and adaptable to your family's schedule and interests.

Please find below the summer assignments for your child's grade level:

**Rising Fourth Grade:**

**Reading:** Read 20 minutes daily and complete a written narration 2x a week of what you read.

**Journal Writing:** Write in your journal twice a week about a story you read that week. Each entry should include the date, book title, and author and at least 4-5 sentences summarizing what you read, in paragraph form and in CURSIVE. You should use complete sentences and the 5-sentence format we used in 3rd grade.

**Math:** Mastery of multiplication facts.

If you do not have a set of multiplication flashcards, please purchase them and study your multiplication facts as often as possible. Your summer packet includes a 5-minute, 64-fact timed test with facts 0-12. Before returning to school, you are to work towards 100% accuracy on this test. Study your flashcards and take the test as often as you wish until you get all 64 correct.

**\*Please return the work on the first day of school.**

We encourage you to incorporate these assignments into your summer routine and make learning a fun and interactive experience for your child. Whether reading together as a family, exploring nature, or engaging in hands-on science experiments, there are countless ways to keep your child's mind active and curious over the summer months.

Thank you for your continued partnership in your child's education. We look forward to seeing everyone refreshed and ready for another exciting school year in the fall!

Handwriting practice lines consisting of ten sets of horizontal lines. Each set includes a solid top line, a dashed middle line, and a solid bottom line, providing a guide for letter height and placement.
